

FIGURE 1

This is a detailed exploded perspective view of a mechanical assembly, likely a hinge or latch mechanism. The drawing shows numerous individual components, each labeled with a numerical callout. Key parts include a main housing (1), a lever arm (2), a spring (33), a pin (37), and various internal linkages and fasteners. The assembly is shown in a disassembled state to illustrate the relationship between the parts. The callouts range from 1 to 108, with some parts having multiple variants indicated by letters (e.g., 14A, 14B, 14C, 14D, 14E, 14F, 14G, 14H, 14J, 14K, 14L). The drawing is a technical illustration in black and white, typical of patent documents.
